DETAILED ACTION

Allowable Subject Matter

1. Claims 1-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Norman (US 2001/0012289) discloses a switch for receiving a first signal from the first network and mapping a overhead of the first signal into the unused bytes of a overhead of the second signal of the second network. Norman fails to discloses an transport system maintaining optical networking protocols between optical network connections of a first network coupled to a second network comprising map switch coupled to the second network and configured to identify unused portions in an overhead of a data stream from the first network and to map predetermined portions in the overhead of the data stream to the identified unused portions; and de-map switch coupled to the second network and configured to map the predetermined portions from the identified unused portions back to locations in the overhead of the data stream previously occupied by the predetermined portions, prior to the mapping of the predetermined portions to the identified unused portions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
